About the Workshop

Once you've graduated from our Presentation Skills series (Stand & Deliver, Selling Stories, Working the Room), you'll have the baseline of a confident presenting powerhouse. But don't just stop there! Drop the Mic is the next level presentation skills workshop designed to kick you up to Ninja heights.

Using everything you've learned and throwing myriad new techniques into the mix, we'll challenge your brains and bodies to become truly unflappable, unstoppable and un-ignorable masters of the room. We'll teach you to authentically internalize stories and become free from scripting and notes, make you not just immune to conflict but excited to use it to your advantage, we'll help you unleash your passion with laser-like intent, make you so fast on your feet you'll be a blur, and unlock the secrets to being truly fascinating in the room.

Everyone who takes Drop the Mic will get plenty of stand-up time and receive one-on-one feedback as well as continue to build on the tag team skills they've developed. We'll work more on storytelling and improv skills, take your confidence to the next level, teach you how to present from a place of conviction, help you to further embody your presenting super powers and set you up for a bold future filled with 'drop the mic' moments.
