About the Workshop

Why are some people magnetic, confident, in charge of their destinies, and utterly at ease in their own skin? What's their secret? In a word: Swagger.

And no, this is not the old swagger—that show-off, in-your-face, arrogant kind. This brand-new swagger is unshakable, unstoppable and utterly irresistible.

Regardless their success, too many people in the professional world still struggle to both reach and feel self-assured at that next level. They're limited by self-doubt, fear, or a lack of understanding of their true place, purpose and value in the world. As a result, their confidence is unreliable, they may feel like they're faking it, they struggle to communicate or lead assertively and authentically and yet they know that their 'real', most powerful selves are trapped somewhere inside just waiting to be freed!

In this experiential workshop, leaders and teams will discover the swagger blockers holding them back and the drivers that will liberate their unique superpowers so they can communicate and represent with ease, connection, realness and unique voices and presence. They will learn how to face down and record over their negative and self-limiting mental tapes, the value of scenario planning in order to combat their fears, how to visit and even revisit difficult conversation and situations with clear intention and outcomes, and even how to deal with emotions (both theirs and others) in an authentic and still professional way.

In addition, Swagger will help them discover the crucial difference between confidence and self-belief so that they never have to feel out of their depth again and that will change the way they live AND work—without ever having to sacrifice who they are.

Note: This workshop comes complete with a complimentary copy of Combustion founder, Swagger Coach and author Leslie Ehm's *Wall Street Journal*, *USA Today* and *Amazon #1 bestselling book Swagger: Unleash Everything You Are and Become Everything You Want* AND a comprehensive Swagger companion workbook. Live Swagger Q&As with Leslie Ehm can also be provided for multiple cohort audiences.
